ABOUT ME

Passionate, active, and always seeking new horizons, I define myself as a person with broad interests and a great passion for technology since childhood. Constantly immersed in exploring the latest innovations, my dynamic approach is complemented by my teamwork skills, finding gratification in close and collaborative interactions with my colleagues.

PROJECTS

MovieTime!: A full stack application developed with **Next.js**, **Prisma**, and **PostgreSQL** that serves as a platform for users to track the movies they have watched. Each movie will display details such as title, rating and genre.

Gappillery: E-commerce application for mobile and tablet for photos and illustrations. Developed with React and TypeScript.

API Rick y Morty: Responsive website that displays a list of episodes of the Rick & Morty series and the characters that appear in each of them through an API call. Developed entirely with TypeScript.

Calendar: Calendar for noting events, developed with TypeScript.

EDUCATION

Master in Software Development | Oct 2023 - Jun 2024

Assembler Institute of Technology, Barcelona

1200-hour training with **Agile** methodology. During the training, I developed several projects, both individual and group, including a Spotify clone, a movie list manager, and an e-commerce site. These projects were developed using **React**, **TypeScript**, **Prisma**, **Express**, **PostgreSQL**, **Cloudinary** and **Auth0**.

Bachelor's Degree in Law | Sep 2014 - Sep 2019

University of Seville + University of Granada (SICUE)

Bachelor's Degree in Software Engineering | Sep 2009 - Incomplete

University of Seville

Member of the Student Delegation and volunteer in the XV, XVI, and XVII editions of the Student Fair at the stand of the School of Computer Engineering, assisting high school students.

WORK EXPERIENCE

Freelance Software Developer | Jan 2024 - Currently

Civil Service Exams | Jan 2020 - Sep 2023

Freelance Photographer | Jan 2010 - Dec 2019

I have done advertising work and portraits, but I specialize in event photography. I have collaborated with various venues and music magazines and with the production company SON DE PRODUCCIÓN in the casting for the film "La isla mínima." Over the years, I have become proficient in tools such as Photoshop and Lightroom.

Community Manager and Graphic Designer | May 2016 - Apr 2017

ANSQUARE. IT Services. Seville

In this position, I was in charge of the brand's image, which includes: logo, website design, as well as content creation and maintenance of its social media (Twitter and Facebook).
